SKILLS

- **Languages:** C++, C, C#, dart
- **Skills:** Html, Css
- **Tools/Platforms:** Unity, Flutter

PROJECTS

- **To-Do App (Flutter) -** Jan 2025
Description: A simple task management app built using Flutter that allows users to add, edit, delete, and mark tasks as completed.
Features:
 - Add, update, and delete tasks
 - Mark tasks as completed/pending
 - Persistent local storage using Hive
 - Clean and responsive UI.
- **Nike App Clone (Flutter)-** Dec 2024
Description: A visually appealing and responsive e-commerce app built using Flutter, replicating the UI/UX of the Nike app. The app allows users to browse, search, and purchase sneakers with a seamless shopping experience.
Features:
 - **Product Catalog:** Display Nike shoes with images, descriptions, and prices.
 - **Search & Filters:** Users can search for sneakers and filter by category, size, and price.
 - **Shopping Cart:** Add/remove products and view total price.
